

Adopt-A-Pet

Please adopt your pet from the local shelter

Once every eight seconds an unwanted cat or dog is euthanized in the U.S. You can help with this sad reality by adopting a cat or dog from your local animal adoption shelter.

Millions of cats and dogs end up in shelters every year. Shelters are full of healthy, sweet and smart animals. Many of these pets are surrendered due to a change of circumstance in their family (a move, divorce, new baby, etc...)

Adopting from an animal shelter is an act of love. It's good for you, the adoption shelter, and especially for the animal who needs you. And

pets are great companions as they have been proven to boost your mood and reduce your stress!

Added to the pleasure of having a new companion, you'll be happy to be the one who was able to offer him a second chance at love and life.

Adoption Shelter cats and dogs are spayed or neutered, immunized and ready for their "forever home."

Your local animal adoption shelter is brimming with pets of every breed, age and personality just waiting for a loving home. Shelter staff can help you pick the perfect companion for you.

Whether you prefer young and frisky or mature and mellow, you're sure to find the perfect pet companion!
